EDUCATION

Bachelor of Technology in Computer Science and Engineering **July 2023 – Present**
National Institute of Technology (NIT), Durgapur
CGPA: 8.0 / 10.0
Relevant Coursework: Object-Oriented Programming, SQL, Data Structures and Algorithms, Operating Systems
Highlights: JEE Advanced AIR 11.3k | CodeChef 2-Star | Solved 150+ LeetCode problems | National-level chess player

TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript
- **Web Technologies:** HTML, CSS, JavaScript, FastAPI, RESTful APIs
- **Libraries/Frameworks:** NumPy, Pandas, Matplotlib, scikit-learn, ReactJS
- **Databases:** SQL, Relational Databases
- **AI/ML:** Generative AI, Machine Learning, Prompt Engineering
- **Tools & Platforms:** Git, GitHub, VS Code, Google Colab, Linux CLI, n8n
- **CS Fundamentals:** OOP, Data Structures, Algorithms, OS
- **Soft Skills:** Analytical Thinking, Collaboration, Communication

WORK EXPERIENCE

Software Development Intern **July 2025 – Present**
FlairX | Remote

- Designing a hybrid AI+Human interview platform using LLMs to streamline candidate evaluations.
- Building scalable UIs with React.js and the MERN stack to enhance interactivity and frontend responsiveness.
- Integrating LangChain and LangGraph to automate agent workflows and minimize manual screening effort.

AI Engineering Intern **June 2025 – July 2025**
SHRIS Infotech | On-Site

- Enhanced WealthUpp's AI engine by integrating LLM-powered automation and n8n workflows.
- Developed trade prediction and options data pipelines for next-day financial insights.
- Acquired hands-on experience with stocks, options, and mutual funds in fintech contexts.

Training and Placement Coordinator **April 2025 – Present**
NIT Durgapur

- Driving placement initiatives by connecting with 15+ companies, boosting placement operations by 30%.
- Optimizing recruitment schedules to minimize campus drive conflicts, achieving a 40% reduction.
- Managing 10+ placement drives to date with 100% recruiter satisfaction through effective coordination.

PROJECTS

NeuraVoice: Real-Time Voice Assistant Platform | [Link](#) **July 2025**

- Built multimodal voice assistant using Groq LLaMA3, Whisper, and ElevenLabs.
- Developed low-latency WebSocket pipeline for real-time audio streaming.
- Integrated agentic actions like email dispatch and calendar scheduling.

NeonSpire: AI-Powered Document Intelligence Chatbot | [Link](#) **June 2025**

- Developed React + FastAPI tool for PDF-based Q&A.
- Integrated Phi 1.5 and REST APIs for real-time response generation.
- Enabled semantic search pipeline for pinpoint document answers.

StockSense: ML-Driven Grocery Sales Forecasting System | [Link](#) **May – June 2025**

- Built Random Forest model to forecast grocery demand (85%+ accuracy).
- Engineered custom features and ran data preprocessing pipeline.
- Published interactive Streamlit dashboard for demand insights.
